## Rexnord Product Upgrade Announcement SSR812 TAB K325 RT Metal TableTop Chain

Rexnord FlatTop continuously develops and introduces new products for conveyors. Our three product lines; Rexnord®, MCC® and Marbett® are frequently reviewed to ensure that they continue to provide high-performance and overall value to customers.

### SSR812 TAB K325 RT Series upgrade overview

We have improved the SSR812 TAB K325 Series Metal TableTop® Chain by upgrading it with the 66 Series XHB Pins. This upgrade will improve performance in the harshest working conditions.

### Are the products compatible?

The upgraded SSR812 TAB K325 RT Series chain is compatible with original chain and will run on the same sprockets and tracks. All other characteristics remain the same.

### When is this change occurring?

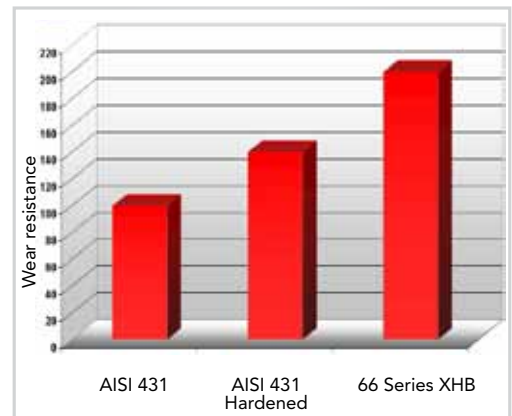

This upgrade will be effective August 2012.

### Does the change affect price and delivery?

Contact your Rexnord representative for pricing. Delivery time will remain the same.

SSR812 TAB K325 RT Series TableTop Chain

Product Upgrade

### Which series are included in the upgrade?

The chain description and code number listed in the chart below is included in this upgrade.

Chain Type	Code Number	Plate Width	Weight
		in / mm	kg / m
SSR812 TAB K325 RT	10.105.21.11	3.25 / 82.5	3.40

Description and code number remain the same.
