FOOD INDUSTRY SOLUTIONS

Regal Rexnord is Driving Efficiency and Reliability Across the Food Supply Chain

In today's fast-paced and highly regulated food industry, maximizing throughput and operational reliability is essential to staying competitive. From farm to fork, every link in the supply chain must operate with precision, efficiency, and reliability. Regal Rexnord delivers unmatched expertise and a comprehensive portfolio of food-safe, environmentally conscious products and digital monitoring solutions designed to meet the industry's toughest demands.

Our integrated solutions help streamline compliance with rigorous standards, reduce downtime, and drive measurable improvements in productivity. Whether you're focused on minimizing waste, maximizing throughput or improving your overall equipment effectiveness (OEE), Regal Rexnord empowers you to achieve peak performance with confidence.

REGAL REXNORD MISSION

Regal Rexnord is committed to creating a better tomorrow with sustainable solutions that power, transit and control motion. For us, this means creating innovative solutions that focus on both customer needs and our commitment to sustainability.

We understand the goals and challenges that food processors face. Our wide range of powertrain product solutions aim to maximize equipment performance and enhance operating profits by reducing energy cost.

BAKERY PRODUCTION

Bakery operations demand precision, consistency, and speed to meet high-volume production goals while maintaining product quality and food safety. Regal Rexnord delivers tailored solutions that help bakery manufacturers maximize throughput, reduce downtime, and streamline compliance with hygiene standards. Our portfolio includes food-grade bearings, energy-efficient motors, metal and plastic conveying belts and conveyor components, along with smart monitoring technologies that provide real-time insights into equipment performance.
