Why Choose Rexnord?

When it comes to providing highly engineered products that improve productivity and efficiency for industrial applications worldwide, Rexnord is the most reliable in the industry. Our commitment to customer satisfaction and superior value extends to every area of our business.

Solutions to Enhance Ease of Doing Business

Our commitment to operational excellence means you benefit from getting the right products to the right place at the right time.

Cline Rapid Shaft and Rapid Clutch Inventory Partnership Programs

Smart Inventory

At Rexnord we utilize rapid shaft and rapid clutch smart inventory programs to:

- Determine inventory of available spares and population of shafts in operation.
- Inventory your parts in our warehouse for quickest repair turnaround.
- Provide constant improvement monitoring and inventory consolidation efforts.
- Determine the condition of your shafts and make recommendations regarding inventory at your mill site, design improvements, and cost reduction.

Program Types and Benefits

No "Cookie cutter" plan! We can tailor any type of shaft, coupling, clutch or brake program to assist in solidifying the reliability of your equipment! Options available:

- Exchange programs
- Consignment plans
- Field service support
- Complete engineering support
- Complete program management
- Continuous training

Partnership and Service

At Rexnord we have a detailed repair and return program for all components including inspection reports.

Rexnord engineering staff are experienced in power transmission application engineering and design, and are readily available to assist you in all of your needs.
